### 2 Day 360° CQD for End Users Course

- The purpose of this class is to offer training in 360° CQD (formerly the CAR System) to those who do not have the time for a longer course. It is our opinion that this 2-day course is the absolute least time one can spend training in 360° CQD initially and still get a hold on all of the concepts enough to practice properly post course. To benefit most from the live training we recommend everyone take the eLearning 360° CQD course prior.
- The class limit is dependable on the size of the facility hosting the event but typically 8-12 students.
- There are three variations of this course that offer three “packages” for the student to choose from which are as follows:

#### 2 Day 360° CQD Course for End Users “Bronze Package”

- **\$400.00 if paid in full 30 days prior to course start.**

### Further Information

Eligibility: As always, only persons who provide a current background check (in the form of a concealed weapon permit, Mil/LE agency credentials, police background check, etc.) are welcome to attend. Current Law Enforcement, Military and Corrections, Security, etc. personal are given preference as they actively need the training to protect themselves and us but this course is open to and designed for those protection minded civilians with shooting experience and good range safety skills.

Ammunition: Ammunition requirement is approximately 800 rounds (typical ammo expenditure is 750-900 rounds). We realize that ammunition is both expensive and increasingly hard to come by and do not want to dissuade anyone from attending due to ammunition but, this course is based around firing multiple rounds on multiple targets quickly. Proper marksmanship principles will be practiced but there is no substitution to proper practice with live ammo especially when in the presence of a certified Master Instructor who can analyze both your form and the target.

Range Fees: Depending on the range and classroom being used for the course there may be an associated fee for the facility rental. This fee varies depending on the facility and id due the morning of the first day of the course. Please ask about the fee for the particular course you are on.

## 2 Day Syllabus:
