### 5 Day 360° CQD Basic Instructor Course

- ❖ The purpose of the 5 day course is to have the maximum time (pre course, during and post course) to learn the 360° CQD system. Some people wish to be an instructor and some people do not. To facilitate this there are 3 versions of this course offered (Gold, Silver, and Bronze). Those who want to learn and are not concerned with the instructor route usually opt for Bronze. Where those concerned with the instructor track typically opt for Silver or Gold. All three levels are described below.
- ❖ Each level of the 5 day course goes in depth on the *why* and *how* of our techniques and tactics but also our evaluation framework and teaching techniques (based from Ken Murray and others). That is why we have a “Bronze Package”, to benefit immensely from the 5 days of training if you do not want to be on the instructor track.
- ❖ Note: There is mandatory post course work required to receive your Basic 360° CQD Instructor Certification.
- ❖ Everyone who attends the course in full will receive a Certificate of Attendance immediately following the training and there is no time limit to your completing of the post course work to receive certification. Work at you own pace.
- ❖ Simply paying your fee and showing up do not guarantee you will receive “Instructor Certification”.
- ❖ Post course work to achieve Basic 360° CQD Instructor Level is:
  1. Creation of a 360° CQD instructional syllabus for your agency or clientele.
  2. Video footage of you shooting the 360° CQD – Personal performance evaluation.
  3. Video of you instructing various points of the 360° CQD.

## Further Information

Course Eligibility: As always, only persons who provide a current background check (in the form of a concealed weapon permit, Mil/LE agency credentials, police background check, etc.) are allowed to attend. Current Law Enforcement, Military and Corrections etc. personal are given preference as they actively need the training to protect themselves and us. We welcome those without prior “tactical shooting” courses under their belt but they must have a strong grasp of Range Safety. Safety is paramount and will be covered in depth and re-covered every day there is live fire. All shooting drills will start off basic and move toward more complex as the students demonstrate the ability to complete them safely.

Range Fees: Depending on the range and classroom being used for the course there may be an associated fee for the facility rental. This fee varies depending on the facility and is due the morning of the first day of the course. Please ask about the fee for the particular course you are on.

Ammunition: Ammunition requirement for the 5 days is approximately 1800 rounds (typical ammunition expenditure is 1650 - 2000 rounds). This is an Instructor Course in teaching a variation on a shooting at close quarters (ie. CAR System), it is not a shooting course though, shooting proficiency and shooter ability is a strong component and a volume of rounds will be fired.
